

**COUNCILMEMBER DONNA FRYE**

City of San Diego  
Sixth District

**MEMORANDUM**

**DATE:** February 23, 2005  
**TO:** City Manager Lamont Ewell  
**FROM:** Councilmember Donna Frye *Donna Frye*  
**SUBJECT:** Water and Wastewater Capacity Charges

---

On June 8, 2004, the Council directed the City Manager to review Council Policy 900-12 related to the business and industry incentive program for water and sewer capacity charges. This policy exempts certain industrial and commercial enterprises, as well as certain affordable housing units and residential units constructed in redevelopment areas, from paying the full capacity charges. The direction to review this policy was reiterated on June 22, 2004 when water capacity fees were adopted. The Council asked the City Manager to report back to Council on these subsidies within three months. The City Manager never reported back to Council.

I am now requesting that the City Manager report to the Council within thirty days.

Thank you for your prompt attention to this matter.
